The subject(s) then used an unknown object to pry the rear window open (window leads into the kitchen). I observed the window to be completely open and pry marks (scratches and small dent) on the bottom of the window pane (outside). I also observed the same pry marks on the bottom (outside) of their window. The subject(s) then entered the residence through the open window and it appears they went directly to the home owners master bedroom (due to nothing else being in disarray throughout the residence or missing). The bedroom is located on the second floor. Upon entering the bedroom I observed a damaged small safe (wood with metallic corners) with several items outside of it, several dresser drawers to be open, several Louis Vuitton handbags on the middle of the floor, and several miscellaneous items tossed next to the bed. Officer Miller then advised the owners safe was taken from their closet. It appears the subjects then left the residence through the front door due to home owner found the door wide open when she arrived home. Owner advised she had already touched/grabbed the doorknob prior to our arrival. At this time, Officer Krol arrived on scene and I advised him of above information. I took photos of both the outside of the residence and the entire inside of the residence, including damages to the window. They were entered into the evidence folder by Officer Krol. I processed the window pane and window for possible finger prints, but had negative results. I was also unable to get any finger
